Thoughtful Design.  
 Premium Materials.  
 Meticulous Craftsmanship.  
 Beautiful Finishes.  
 Customer Satisfaction.

At Yutzy we design and build furniture that is functional, beautiful and desirable. Furniture that is built to be cherished for generations.

# Home Furniture

## Customer Orientation

**Subject:** Construction details of our heirloom quality home furniture

In our Ohio Shop Yutzy craftsman build our furniture with precision and focused attention to detail using traditional time-honored techniques that are the hallmarks of quality furniture.

## Details that set our home furniture apart.

### Solid Wood Construction

We use only the finest hardwoods, ensuring durability and timeless beauty in every piece.

### Dovetail Drawer Joints

(A) A feature of fine woodworking. This method of joinery offers superior strength and longevity.

### Mortise and Tenon Joints

(B) For superior strength and stability, our tables and chairs are built with mortise and tenon joints.

### (C) The Right Fastening Method

Using the right fasteners is crucial to the dimensional accuracy and longevity of the piece. We use stainless steel screws and glue in the construction of our furniture. Never staples or camlocks.

### Hand-Applied Finishes

Our one of a kind, eco-friendly, finishes are applied by hand to every piece. This approach illustrates our dedication to creating a beautiful, durable finish.

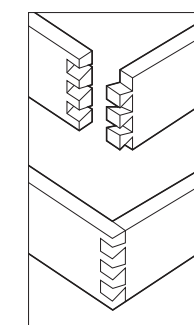

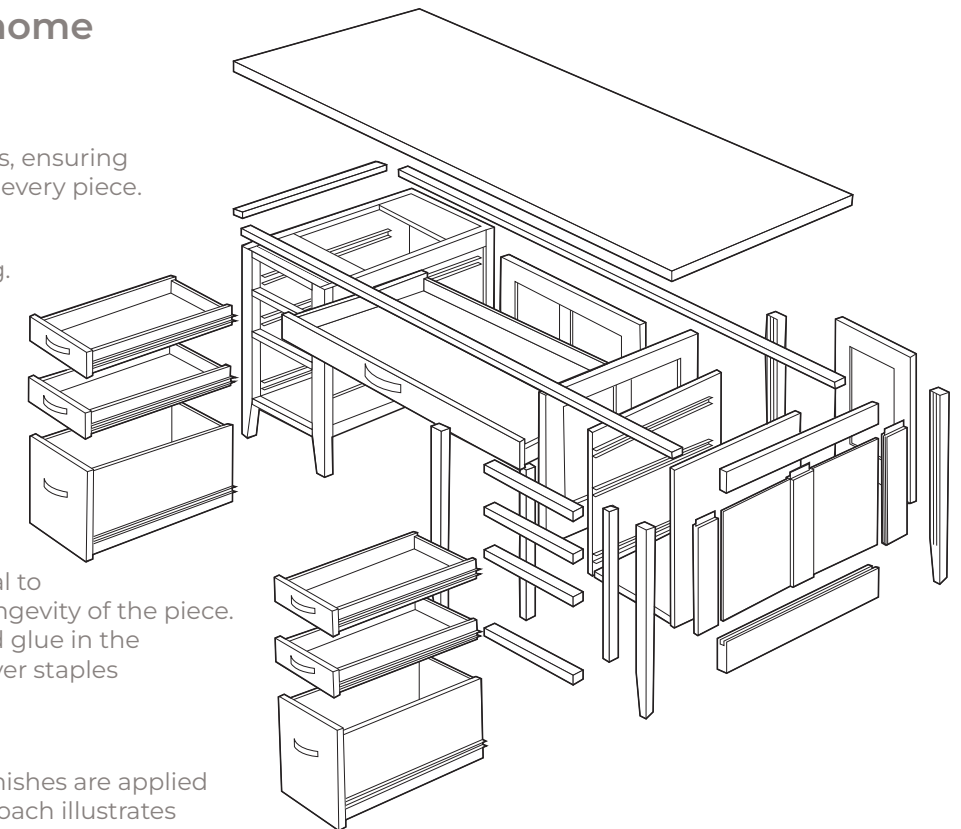

### Customization Options

From wood types to finishes to hardware, we offer a diverse range of customization options to suit any style.

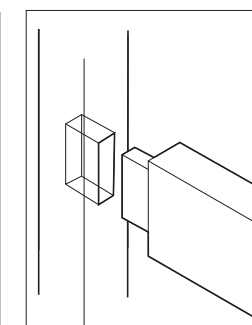

### Sustainability

A commitment to responsible sourcing of wood from sustainable forests.

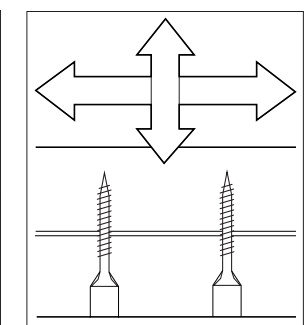

With this knowledge, you'll be able to confidently showcase the unique value of Yutzy to every customer.

(A)

## Why Choose Yutzy Home Furniture?

Unwavering dedication to design, craftsmanship and exceptional quality. Every piece is designed and built to be both functional, beautiful *and* desirable.

When you sell Yutzy furniture, you're offering your customers more than just a product – you're guiding them to heirloom-quality furniture that will be cherished for generations.

# The Yutzy Difference

## OUR GUIDING PRINCIPALS

### CORE VALUES

- Integrity
- Dependability
- Quality
- Unity
- Innovative

### VISION

To lead American furniture manufacturing with superior design, premium materials, unmatched craftsmanship and outstanding customer service. And to serve those around us for a better future

### MISSION

To design and build solid wood furniture that will be cherished for generations.

Yutzy started with the dream of building solid wood, heirloom quality furniture in America solidly rooted in Amish principles— humility, family and community.

Closely adhering to those principles the second generation is now guiding the company alongside the first, anticipating future trends and thoughtfully broadening our product offerings. Second generation ambition combined with traditional Amish principals continues the culture of building furniture that will be cherished for generations.

### Serving the Customer

Through our accomplished sales and customer service teams, Yutzy is committed to customer satisfaction. We cater to the needs of our customers the traditional way; personal interaction. Call and you'll get an authentic, empathetic person who is ready to serve you instead of the now common, and frustrating, automated customer support phone tree or chatbot.

# Structure

We build every piece with an unwavering commitment to quality and the preservation of time-honored traditions. Meticulous craftsmanship, high-quality materials, and time-honored woodworking techniques create family heirlooms that withstand the test of time.

### Drawers

### Strength, aesthetics & longevity.

All drawers (A) are solid wood with dovetail construction and are a standard of fine furniture craftsmanship.

All drawers (B) are full extension soft close with side mount drawer slides.

### Tops & Sides

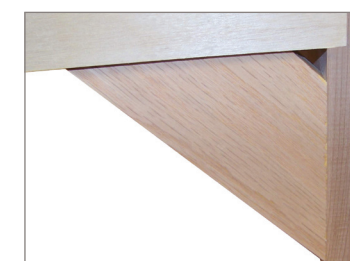

Solid wood tops & side panels.

### Back Panel

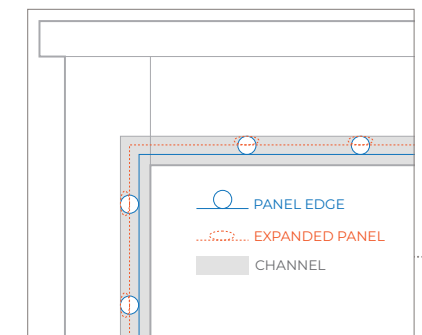

Framed fitted back panels.

### Stability

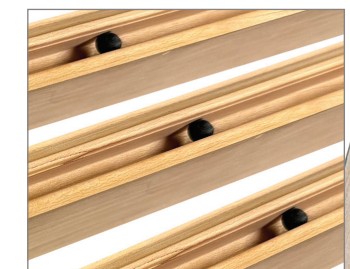

Built-in corner stability.

### Spacer Balls

Side panel detail not to scale

Floating spacer balls keep panels centered and rattle free. Absorbs panel expansion and eliminates panel cracking and damage.

*All*  
SOLID WOOD  
CONSTRUCTION

# Incomparable Finishes

We take pride in our high-quality finishes that balance beauty and durability and is the final step in the crafting of our fine solid wood furniture.

## The Perfect Finish is Comprised of 4 Elements.

- 1
- Dust Control
- 2
- Sanding
- 3
- Staining
- 4
- Curing

### Whole shop dust control

A fine finish starts with controlling impurities in the air. We don't just control dust at the sanding stations, we clean the air of the entire shop - from the mill to final inspection. We do this to ensure a flawless, durable finish.

### Sanding

This seemingly simple process is, in fact, a skill demanding patience, precision, and an understanding of the material at hand. The goal is always a smooth surface, devoid of imperfections that still leaves the grain open to accept stain. It also has to be consistent across the whole piece to ensure that the stain penetrates evenly.

### Applying stain

Applying the stain evenly is very important in creating a fine finish. Even stain application paired with skillful sanding ensures consistent color over the whole piece and/or suite of furniture.

### Curing

The final step is applying the oven-cured catalyst that not only resists moisture and chemicals but also keeps them on the surface so they can be wiped up and cleaned thoroughly.

# Quality Assurance

Yutzy consistently delivers industry-leading quality by adhering to a strict quality control process.

Before the finished pieces are packaged for shipping we conduct:

**Visual Inspection:** Visual inspection is the first step in inspecting our finished pieces. This involves closely checking the final product for defects or issues that may affect its quality, such as scratches, dents, or color inconsistencies.

**Dimensional Inspection:** Dimensional inspection involves checking the dimensions of the finished product to ensure that it meets the required specifications.

**Functionality Testing:** Functionality testing involves checking the finished product to ensure that it functions as intended. This includes testing drawers, hinges, locks, and other components to be certain that they work correctly.

Only when our quality control specialist is satisfied that the piece meets our high standards will it be released to our shipping department and carefully packaged to arrive at your store in a condition that will delight you and your customers.

# Packaging and Delivery

## Protecting your furniture during delivery is essential.

We take the same pride in packaging your furniture as we do building it. We use multiple protective materials to ensure that it arrives to you in the condition that it left our shop.

**Closed cell foam:** Used for product and impact protection.

**Corrugated:** The most common protective packaging material. Used for load compression protection, internal blocking and impact protection.

**Plastic wrap:** Clings to the furniture and itself to protect your investment. Secures doors, drawers and panels along with protecting fabric pieces from tears and scratches. Also used to bundle smaller pieces together.

We use these materials individually and in combination to best protect the item to be shipped.

**We also honor special packaging requests such as shipping pieces fully enclosed in corrugated boxes for a nominal up charge.**

Our attention to protecting your order doesn't stop when we're done packaging it. We then carefully load all of our trucks taking the same care we applied to packaging; padded moving blankets, furniture pads, corrugated cardboard sheets, and tie down straps ensure safe delivery.

## PROTECTING YOUR INVESTMENT

# Warranty

## Yutzy Woodworking Ltd. Manufacturer's 5 year Limited Warranty

Yutzy Woodworking LTD warrants to the original purchaser, under normal household use and service, all of its furniture products to be free from defects in material and workmanship for a period of five years, following the date of purchase and delivery to the purchaser.

- This warranty does not cover upholstery (fabrics and/or leathers) or damages which result from neglect, accident, or intentional misuse of any nature.
- This warranty does not include institutional use, normal wear and tear, and exposures to extremes in temperature or humidity, immersion in water, fading or variations in color or finish over time, scratches, blemishes or slight color variations in wood grain, unauthorized repair or alteration of the product.
- Because of the characteristics of solid wood, (a natural material) minor variations in color, wood grain, or construction can occur from piece to piece. Therefore, this warranty does not cover such minor differences, or differences between floor samples or printed illustrations and your furniture.
- Seasonal wood movements on solid wood products are normal and are not considered warranty issues.
- Damage occurring during the delivery or set up of your furniture in your home *is not* covered by this warranty and should be addressed with the company making the delivery.
- Always clean and polish furniture with silicon-free and ammonia-free cleaners. Any mild, common dishwashing liquid works as well. Avoid using any solution that contains bleach or abrasives. The retailer that sells Yutzy Woodworking furniture may have a comparable product they may recommend that does not contain ingredients harmful to this superior catalyzed finish.
- This warranty is null and void if a silicone based cleaner or polish is used and damages the finish surface. It is also best to use products free of wax to avoid a wax build up that can not be removed.
- Dressers, Nightstands, Armoires and Chests of any kind, are intended solely for storage. Headboards and footboards are intended solely for the support of mattresses. Occasional tables and media centers are made for storage and surface function as a table for cocktails, as storage for nightstands, and to support media for media centers. Any other use of these products may create a hazard and void this warranty.

The obligation of Yutzy under this warranty is limited, at the option of the manufacturer, to repair or replace the product with a product of equal quality if the original product under warranty is no longer available, within 90 days from the receipt by Yutzy Woodworking of a written recommendation from the dealer. The warranty is good as long as the manufacturer is satisfied the product proves defective under normal household use and with the correct products used for the maintenance of their furniture. Repairs or replacements under this warranty will be made only by Yutzy Woodworking. If the dealer finds return to the factory necessary, packing and shipping cost will be charged to the purchaser. Return Shipping shall be prepaid to the dealer making the recommendation. All cost for delivery from the purchaser to the dealer and any delivery to the purchaser from the dealer shall be paid by the purchaser.

We Live in an On-Demand World.

Streaming movies and music. Drive thru everything.

**Choice. Fast delivery.**

Yutzy has created a program that caters to those buyers who sell high-quality furniture and promise fast delivery.

**INTRODUCING**

*Simple. Fast. Satisfying.*

Our most popular sets and pieces in popular woods and finishes. Handcrafted and ready to leave our shop within 5 business days.

That's our pledge to you.

**How it Works**

- 1 **Select** your piece and finish.
- 2 **Place order**
- 3 **Ready to ship** within 5 business days.

**Look for the the PRIME logo to take advantage of what this collection has to offer.**

Reminisce, Trieste and Champagne Bedrooms. Premium, Single Pedestal and Leg Tables.

**Furniture Care**

**Always**

**Clean Regularly**

Make cleaning and polishing your furniture part of your regular cleaning routine. Doing this lessens the risk of contaminants building up on the surface which could damage the finish and also make them harder to remove.

**Always clean and polish furniture with silicon-free and ammonia-free cleaners.**

**General Cleaning**

- Always use a silicone free or an ammonia free cleaner. A mild dishwashing soap works well too.
- Use a soft cloth to avoid scratches.
- Dry with a soft cotton cloth.

**Polishing**

- Always use silicone-free polish.
- Apply using a soft cloth in the direction of the grain.
- Buff to your desired finish using another soft cloth.

**Protect Surfaces**

Liquid damage occurs quickly; protecting your investment with placemats, tablecloths and coasters will keep contaminants from damaging the fine finish of your furniture.

**Dealing with Spills**

- Act quickly
- Blot, don't rub.
- Use a specialized cleaner if possible.

Regular dusting, wiping, polishing and carefully placing objects like lamps and vases can prolong the life of your furniture.

**Avoid**

**Chemicals**

Keep solvents away from your furniture — they can strip the finish. Some cleaners contain bleach, alcohol or other products that can stain or strip wood. Always keep away from those ingredients and find natural alternatives. If you're not sure what to use, ask your dealer.

**Plastics**

Color from plastics can leach into wood furniture and the heat and humidity they absorb can also damage your furniture. Keep plastic items off your furniture and replace them with cloth alternatives.

**Sunlight**

If possible, keep furniture out of direct sunlight. Sunlight bleaches wood and degrades furniture finishes.

**Heat & Humidity**

Fireplaces, radiators and forced-air furnaces keep a room warm but take a toll on wood furniture. Place furniture as far as possible away from heat sources. Humidity levels expand and contract the wood used to build your furniture and over time this movement can stress the furniture and

**Avoid using any solution that contains bleach, abrasives, silicone or ammonia.**

make it prone to possible damage. Try to keep the humidity level in your home stable especially if you live in an area that experiences a wide range of temperatures and humidity levels.

# Stains

These pictured samples are close color representations of our stains on various wood species and are not meant to replace looking at a physical sample in the showroom. Color variations and graining differences **are natural** and are an **acceptable and desirable** quality of fine solid wood furniture.
